To Whom It May Concern,

The United States Adventure Racing Association, "USARA," has been privileged to have ESIX as our Risk Managers for over 10 years. The USARA is able to provide the most comprehensive coverage available in the sport of adventure racing due to the diligence of ESIX. This partnership has significantly contributed to the success and ability for growth in the sport of adventure racing.

ESIX has taken a lead role in the development of our waivers and the minimum safety standards for USARA events. The partnership with ESIX has been crucial in maintaining a safe environment for participants and providing event directors with the tools needed for successful events.

ESIX has always provided exceptional customer service. The online event registration has streamlined the application process and has significantly reduced our inter office processing times. The fast and personal attention provided to injured participants by ESIX is invaluable to our association.

The USARA has been highly satisfied with the partnership with ESIX and feel they are part of our family. We feel the partnership with ESIX has strengthened our organization and we strongly endorse ESIX to other sport related organizations.

Sincerely,

Troy Farrar
President USARA
